

PROFESSIONAL NETWORKERS

OUR TEAMWORK MAKES YOUR DREAM WORK!

Professional Networkers' organization is a phenomenon in network marketing that has never been paralleled anywhere else in the world. Professional Networkers was founded by Mike Akins in 1990 as a way to help build, train, and support members of his organization. While many leaders in the network marketing industry concentrate on maximizing personal profits, Mike's focus has always been on maximizing the potential of his fellow team members and helping them reach their desired level of success. It is this philosophy of support and genuinely caring about the well-being of his team members that Mike Akins, his Professional Networkers staff, and fantastic leaders in the field have been able to create an organization of 450,000+ members and customers in more than 90 countries, which currently generates an astounding \$23+ million per month in sales, within a company called 4Life Research.

Who is Professional Networkers? Professional Networkers is a staff of network marketing professionals, many of whom have worked with Mike for 15, 20, and even 30 years, that Mike Akins has brought together for the sole purpose of helping people just like you achieve the level of success they are looking for. These staff members provide many areas of service, such as IT support, advertising, graphics design, success coaching, research, international support, shipping and logistics, and much more. All Professional Networkers staff members' support services are FREE of charge; you simply pay for materials and shipping costs, if applicable.

Support like this is what Mike Akins believes has allowed his Professional Networkers organization within 4Life to achieve some of the best retention rates in the industry. Proof of this can be seen in the fact that Mike's Professional Networkers organization within 4Life includes almost 80% of the company's top leaders (as of September 2016). There are also thousands of other members earning commissions anywhere from a few dollars to more than \$170,000 per month.
