SIX QUICK REASONS WHY WE BELIEVE THIS IS THE BEST HOME BUSINESS OPPORTUNITY

1 SELECTED AS ONE OF THE BEST HOME BUSINESS OPPORTUNITIES IN THE WORLD AFTER A SCIENTIFIC STUDY

After an exhaustive 3½ year, half-million dollar study of 342 of the industry's top programs, this company was selected as one of the best home business opportunities by Research & Marketing Consultants in 1998. Since then, more than 1,000 opportunities have been examined and our company is still rated the highest based on numerous factors that we will cover later.

2 AN EXCLUSIVE NEW CATEGORY OF NUTRITION CREATES A POTENTIALLY LUCRATIVE OPPORTUNITY

After more than 20 years in business and billions of dollars in worldwide sales, you would expect a lot of copycat products in the marketplace. However, no other company has been able to create products that come close to the power that our products hold. These products have essentially created a new category of nutrition. This allows affiliates to market products without the typical competition of similar competing products.

3 EXTENSIVE RESEARCH ON THE BENEFITS OF TRANSFER FACTORS

In the decades since the discovery of what have now been coined "miracle molecules", researchers and institutions have spent an estimated \$40 million studying these power-packed molecules and have published hundreds of scientific papers documenting the ways in which they impact the immune system.*

No other network marketing product has ever been beneficial to so many areas of a person's health!

4 EFFECTIVE SCIENCE-BASED & AWARD WINNING PRODUCTS

Our company's award winning products are uniquely effective compared to other products on the market based on scientific research by numerous institutions such as Auburn University, Weber State University, the University of Missouri, MedGaea Life Sciences Institute, and the Russian Academy of Medical Sciences (RAMS).*

5 OUR PRODUCTS ARE LISTED IN THE PRESCRIBERS' DIGITAL REFERENCE

The Prescribers' Digital Reference (PDR) is a respected medical resource. Having your products listed in the PDR provides scientific credibility that makes it easier to market.

6 28 DIFFERENT BONUSES TO REWARD EVERY CATEGORY OF NETWORKER.

Whether you are new to network marketing, a professional networker, or anything in between, our pay plan has been scientifically designed to be very lucrative for you. Our 28 different bonuses and 60% actual payout will reward you for sharing the products and opportunity with others.

*Distributor earnings vary as a result of numerous factors. RESULTS SO FAR? MANY PEOPLE ALL OVER THE WORLD ARE LIVING HAPPIER, HEALTHIER LIVES*

Here is a quick look at what the **Professional Networkers** marketing family has been able to accomplish so far with this opportunity due to Mike Akins' 50+ years of successful experience, the support of the Professional Networkers staff, and the marketing efforts of many tremendous leaders throughout our organization.

RESULTS SO FAR

- Hundreds of thousands of members & customers on our team.
- 80% of the company's top leaders.
- Approximately **20+ Million LP** per month in sales volume throughout 90+ countries due to many fine leaders in our organization.
- Thousands of individuals making money based on their own schedules & financial goals.
- Approximately 97% growth left relative to estimated potential.

**Professional Networkers
Founder & Upline**
Mike Akins

More about Mike Akins

Mike Akins grew up in poverty, was an insecure introvert, and stuttered profusely when he began his career in 1967 at the age of 19. Mike understands first-hand the fears and challenges that come with starting a new journey like network marketing.

Mike decided to compile a good support staff, systems, and tools to help encourage new members through the early stages of the journey and help automate the process of growing their businesses. That's when he created Professional Networkers.

- Mike Akins, has 50+ years of successful network marketing experience and has created a staff of network marketing professionals to assist you on your journey to success.
- Mike has donated **millions** to people with health challenges through his nutritional therapy program and has helped the disadvantaged around the world over the last 20+ years.
- Mike Akins is a humanitarian and lives on approximately only 3-5% of his income.

*Success is not guaranteed. Distributor earnings vary as a result of numerous factors. TRANSFER FACTORS

A REVOLUTIONARY NUTRITIONAL BREAKTHROUGH

THERE CAN'T BE A GREAT OPPORTUNITY WITHOUT A GREAT PRODUCT

RECOGNIZE. RESPOND. REMEMBER.

POWERFUL IMMUNE SUPPORT*

Our transfer factors are comprised of smart peptide molecules that educate your immune system to recognize, respond to, and remember potential health threats to the body.*

Your immune system is a complex network of cells, molecules, and body chemicals that are laboring night and day to keep you healthy. Transfer factors improve the communication and defense mechanisms of your immune system.*

Recent independent laboratory studies have shown that our core transfer factor products bolster Natural Killer (NK) cell activity in the presence of a health threat, while activating a variety of other immune system cells, such as B cells and T cells.* (See graph page 11)

Our company extracts their transfer factors from cow colostrum and chicken egg yolk sources. Transfer factors from cows and chickens provide humans with a wide variety of immune information. The reason for this is because cows and chickens live in unclean environments. These environments expose them to the elements and many more health threats than humans, so their immune systems must learn to battle in order to stay healthy.

Consuming transfer factors from cow colostrum and chicken egg yolks transfers the immune system experiences of the cows' and chickens' immune systems to our own bodies to help educate and strengthen our immune systems against a wider variety of health threats.

1 Recognize. Transfer factors help immune cells quickly identify invading threats.*

2 Respond. Transfer factors help speed up the immune system's response to a potential threat after it has been identified.*

3 Remember. Transfer factors lend a hand in remembering the specific makeup of the threats your immune system encounters, so the next time it's encountered, your body knows exactly what it is and how to combat it.*

WHAT DO MEDICAL PROFESSIONALS SAY ABOUT TRANSFER FACTORS?

Darryl See, MD

“There is no other product in a nutritional substance...that has this kind of power and ability to affect our immune system.”*

Dr. See received his degree from the University of California, Irvine. Academic appointments include: Assistant/Associate Clinical Professor of Medicine; Investigator, California Collaborative Treatment Group; and Infectious Disease Consultant, Liver Transplantation Service. He has received contracts, grants, and research awards from Pfizer Pharmaceuticals, Upjohn Pharmaceuticals, Roche Molecular Systems, Harvard Biotechnology, National Institutes of Health, U.S. Department of Defense, and more. Dr. See was also knighted by the Queen of England for his research.

Robert W. Robertson, Jr., MD

“Without a doubt, transfer factors are one of the most significant discoveries in the last century regarding the immune system. It is not a vitamin, mineral, herb, or antibody...It is the next step in the evolution of nutritional science.”*

Dr. Robertson is the founding member of the Health Sciences Advisory Board and is an active distributor. Following a lucrative career as the Director of Emergency Services at Western Baptist Hospital in Paducah, Kentucky, Dr. Robertson and his son, Rob Robertson, III, decided to start a nutritional supplement company. It was while conducting product research for their company that the two discovered the many benefits of transfer factors. Convinced of the importance of their mission, they sold their company and became distributors. Dr. Robertson completed his education at the University of Louisville School of Medicine and worked as an intern at the university's affiliated hospitals.

Our products are listed in the Prescribers' Digital Reference, formerly known as the Physicians' Desk Reference.

WHAT DO MEDICAL PROFESSIONALS SAY ABOUT TRANSFER FACTORS?

Victor Tutelian, MD, MPH

“Transfer factors are the most promising breakthrough in health care discovered in the past several decades. We are just beginning to explore all of the potential of transfer factors. Nutraceuticals like transfer factors are the wave of the future.”*

In addition to earning his MD, PhD, and Doctorate of Medical Science, Dr. Tutelian has also achieved the rank of Professor and has authored more than 400 scientific publications and more than 40 federal regulations. Dr. Tutelian also received the highest recognition for a Russian scientist when he was voted into the Russian Academy of Medical Sciences (RAMS), Russia's most prestigious academy, as an Academician. He now serves as the Chief Scientific Secretary of RAMS. In this position, he determines what research will be done and which projects will be government funded. Currently, Dr. Tutelian also holds the positions of Director of the RAMS Institute of Nutrition, head of the Institute's enzymology laboratory and the Department of Nutrition Hygiene and Toxicology of the Moscow Sechenov Medical Academy, as well as numerous other positions on the scientific and editorial boards.

Edgar A. Guess, Jr., MD, FACOG

“Transfer factors and nanofraction molecules, and the immune modulation they provide, could be the key for the future of immune system health.”*

Throughout his career, Dr. Guess has actively participated in pharmaceutical research. His studies soon grew to an intensive study of herbal, natural, and alternative methods of preventative medicine. Dr. Guess attended graduate school at Creighton University in Omaha, Nebraska. Following graduation, he was inducted into the U.S. Army and spent three years stationed at the Walter Reed National Military Medical Center in Washington, D.C. He then attended the Howard University College of Medicine and received his Board Certification from Harvard University. After many years of operating a successful OBGYN practice in Los Angeles, California, Dr. Guess now serves as a clinical professor at the University of Southern California, Keck School of Medicine where he enjoys consulting with patients and working with students.

RESEARCH ON TRANSFER FACTORS

OUR TRANSFER FACTOR PRODUCTS ARE
PATENTED, CERTIFIED, AND HIGHLY RESEARCHED

STUDIES ON TRANSFER FACTORS NK CELLS

TRANSFER FACTORS INCREASE IMMUNE SYSTEM CELL EFFECTIVENESS UP TO 437%*

Our Transfer Factor products may increase immune system NK cell activity by up to 437%.*

Natural Killer (NK) cells are critical rapid response immune cells whose function is to recognize and appropriately modulate the body's immune system response to threats.

The illustration below measured the increase in immune system effectiveness by means of NK cell activity compared to dozens of other popular nutritional products. This study was conducted by the Russian Academy of Medical Sciences (RAMS) and showed our transfer factor products were 500% more effective than the nearest competing product at increasing NK cell activity.

The most significant results from the 196 nutrient comparison study are shown below. The incredible results in this study were measured after only 48 hours of product use.

TRANSFER FACTORS

INCREASE IMMUNE SYSTEM NK CELL EFFECTIVENESS*

COMPARED TO 196 OF THE WORLD'S TOP NUTRITIONAL PRODUCTS[†]

*Test results obtained from an independent, unpublished in vitro experiment conducted at the Russian Academy of Medical Sciences, in Kashirskoe Shosse, Russia. The randomized and controlled in vitro study assessed the effects of our classic transfer factors, advanced transfer factors, or enhanced transfer factors, versus a positive control (Interleukin-2, or IL-2) on NK cell activity and effectiveness in destroying damaging cells. Blood was collected from healthy volunteers and then incubated for up to 48 hours. (REFERENCE: Kiselevsky MV & Khalturina EO. Unpublished observations)

STUDIES ON TRANSFER FACTORS

IgA ANTIBODIES

INCREASED NATURAL PRODUCTION OF PROTECTIVE SALIVARY IgA ANTIBODIES BY 73%*

This in-house, open-label study, shows that consuming transfer factors and our liquid transfer factor product increases the body's natural production of protective IgA antibodies.

One-hundred percent of all participants in the study showed an increase in IgA antibodies with an average of 73%.*

IgA antibodies are your first line defenders against airborne and surface contact threats in the mucus membranes such as the eyes, ears, nose, and mouth.

The incredible results in this study were measured after only 4 weeks of product use.

FORTIFY YOUR DEFENSES!

Results from an open-label, beta-test experiment showed that our transfer factors effectively helped strengthen the immune system in 100% of the people tested.*†

Increased Production of Salivary IgA Antibodies*

†Immunoglobulin A (IgA) test results obtained from a preliminary, in-house, open-label pilot study on 21 reportedly healthy adults. Participants took our advanced transfer factors for two weeks, followed by a juice version of our transfer factors, infused with antioxidants. One hundred percent of participants saw an increase in the production rate of salivary secretory IgA by an average of 73% after taking our products for four weeks, when compared to the one-week baseline.* A brief drop occurred at the transition between the two products. (Bennett RH: Salivary IgA in Healthy Adults is Increased by Dietary Transfer Factors: An open label, cross-over study. Unpublished findings.)

STUDIES ON TRANSFER FACTORS REDUCING BIOLOGICAL AGE

TRANSFER FACTORS REDUCED BIOLOGICAL AGE BY AN AVERAGE OF 4 YEARS*

A study listed in the 2016 Physicians' Desk Reference (PDR) --Edition 70-- pg. 2212 under "Longevity Studies" stated that a group of 11 older men, ages 55-73, were "given 3 capsules per day of a product containing transfer factors 5 days a week for 6 weeks." At the end of that "6 week" period, tests showed that there was a reduction of their biological age by "approximately four years."

Based on the results of this study an additional study was undertaken in 11 older men aged 55-73. Subjects were given 3 capsules per day of a product containing transfer factors 5 days a week for 6 weeks. At the end of the six week study period a determination of biological age using the Kiev method (17;18) showed a reduction of approximately four years. There were significant improvements in several parameters of cardiovascular function, hearing, balance, vital lung capacity, ability to hold their breath, and some subjective measures. (16)

STUDIES ON TRANSFER FACTORS

TNF-ALPHA | DETOXIFICATION | OXIDATION

INCREDIBLE RESULTS FROM A UNIVERSITY OF MISSOURI CLINICAL STUDY*

This graph shows the incredible effects on reducing inflammatory marker TNF-alpha by 64%,* improving cellular detoxification by 43%,* and reducing cellular oxidation (free radical damage) by 42%.* The incredible results in this study were measured after only 30 days of product use. **The graphs illustrate results from studies conducted by the University of Missouri on our transfer factors.**

TNF-alpha is a key protein of your immune system that is produced in response to occasional physiological stresses, such as intense exercise, high-fat/high-sugar diet, poor sleep, mental stress, and environmental pollutants. TNF-alpha is released by the immune system to exert protective functions and regeneration. However, when not shut down at the appropriate time, this continued defense response places additional stress on your body systems, causing negative outcomes such as advanced aging, fat gain, muscle loss, and low energy. It is important to keep TNF-alpha under control and create a cellular environment that helps get your body back into balance. Renuvo® reduced inflammatory marker TNF-alpha by 64%.* (See figure A)

SOD2 is an enzyme at the front line of the body's antioxidant defenses to fight oxidative stress and rid the body of toxins. Renuvo improved the body's detoxifying effect of the trillions of cells in the body by increasing the amount of SOD2 by 43%.* (See figure B)

PROTEIN CARBONYLS are widely measured markers of the cellular damage caused by oxidative stress. As we age, protein carbonyl concentrations generally increase. Renuvo decreased the protein carbonyl concentration by 42%.* (See figure C)

Decreased TNF-alpha Marker Response* (TNF-alpha causes inflammation)

Improved Detoxifying Effect*

Decreased Oxidative Damage*

STUDIES ON TRANSFER FACTORS NUMEROUS PROTEIN BENEFITS

AUBURN UNIVERSITY STUDY ON THE MANY BENEFITS OF OUR TRANSFER FACTOR PROTEIN*

Our transfer factor protein is the most scientifically advanced and effective protein supplement available.*

Our transfer factor protein was independently tested by **Auburn University**. Testing revealed a variety of body transformation and health benefits.

Results revealed that our transfer factor protein can effectively help you burn fat, build and retain muscle, transform your body, and support your immune system—all at the same time.*†

TESTED BY AUBURN UNIVERSITY

OUR TRANSFER FACTOR PROTEIN BLEND WAS TESTED IN AN INDEPENDENT PRE-CLINICAL UNIVERSITY STUDY.† THIS IS HOW OUR PROTEIN COMPARED TO THE LEADING WHEY PROTEIN*†

*Our company and Auburn University's Molecular and Applied Sciences Laboratory in the College of Education, School of Kinesiology, conducted pre-clinical research to demonstrate the safety and efficacy of our transfer factor protein, a patent-pending product [Mobley CB et. al., J Int Soc Sports Nutr 2015, 12:14].

STUDIES ON TRANSFER FACTORS THERMOGENIC PRODUCT BENEFITS

THE EFFECTS OF CONSUMING OUR BURN PRODUCT OVER A 12-WEEK PERIOD*

A pilot-sponsored study with a select group of participants showed the effects of taking our patent-pending and proprietary thermogenic blend over a 12-week period. The participants took the product as directed, but otherwise made no changes to personal habits, including diet and exercise. At the conclusion of the study, our product produced amazing results.*^

ACCELERATED METABOLISM*

Over a 12-week period, our product accelerated metabolism and doubled the body's ability to burn fat.*

Using our thermogenic blend in combination with our transfer factor protein product can yield remarkable results.

In an independent, pre-clinical laboratory study, the combined use of the two products demonstrated support for weight management, enhanced thermogenesis, and improved body composition.*+

TRIGGERED BODY FAT LOSS*

Over a 12-week period, our product triggered body fat loss without altering lean muscle.*

DECREASED HUNGER CRAVINGS*

Over a 12-week period, our product decreased hunger cravings and increased feelings of fullness.*

Results obtained from a validated ten-point scale.

^+Results as observed in a pilot-sponsored study. Actual results may vary

STUDIES ON TRANSFER FACTORS PRE/PRO-BIOTICS

STIMULATED GROWTH OF THE PREBIOTICS AND PROBIOTICS BY UP TO 868%*

Another example of the nutrient enhancing abilities of transfer factors can be found in this study from **Weber State University** on our prebiotic formula. Transfer Factors stimulated growth of the prebiotic/probiotic found in the product by up to 868%.*

Supporting gut health is important because gut-associated lymphoid tissue (GALT) is the prominent part of mucosal-associated lymphoid tissue (MALT) and represents almost 70% of a person's entire immune system. In addition, with our exclusive microbeadlet delivery system, Our transfer factor prebiotic/probiotic formula increases the amount and longevity of beneficial gut flora by up to 1,000 times over standard delivery.*

TRANSFER FACTORS BOOST GROWTH OF THE PROBIOTICS^{†*}

[†]An independent, university study assessed the potential benefit of Tri-Factor® Formula in Pre/o Biotics®. This in-vitro study measured probiotic growth in the presence or absence of Tri-Factor Formula in comparison to common prebiotics. Results revealed that Tri-Factor Formula enhances Pre/o Biotics by stimulating probiotic growth. These data suggest that Tri-Factor Formula has prebiotic effects and enhances the benefits of the other ingredients in Pre/o Biotics. [Weber State University, 2018, unpublished data.]

STUDIES ON TRANSFER FACTORS COLLAGEN & TELOMERASE BENEFITS

OUR TRANSFER FACTOR® COLLAGEN PRODUCT INCREASES TELOMERASE ACTIVITY BY 277%*

In an independent study, our transfer factor collagen product increased telomerase activity by 277%.* Telomeres play a vital role in preserving the information in our genome. Activating telomerase promotes longevity by protecting cellular DNA, which may lead to improved health during aging.*

SKIN HYDRATION: There was statistically significant improvement in all participants by day 42. By day 84, over 96% of subjects showed an average of 25% improvement.*

FINE LINES AND WRINKLES: Nearly 90% of subjects demonstrated a decrease in the appearance of fine lines and wrinkles with an average of 15% by day 42 and an average of 30% by day 84.*

SKIN FIRMNESS: By day 84, nearly 90% of subjects demonstrated statistically significant improvements in skin firmness.*

Twenty-six healthy adult female and male subjects, ages 40 to 55, consumed one 8 g stick pack of our transfer factor collagen daily for 84 days. Study participants were evaluated at visits on days 0, 42, and 84. At each visit, skin hydration, firmness, and elasticity were measured. High resolution photographs were taken and graded by a dermatologist and a questionnaire was administered.

STUDIES ON TRANSFER FACTORS ENHANCES OTHER NUTRIENTS

TRANSFER FACTORS INCREASED THE EFFECTIVENESS OF VITAMIN C BY **550%***

This study graph shows that when vitamin C was consumed along with transfer factors, the effectiveness of vitamin C was improved by almost 550% more than the control group who consumed vitamin C without transfer factors.

This indicates that when you consume transfer factors with other nutrients, the other nutrients you are consuming are enhanced and better utilized by the body.*

REVOLUTIONARY GOLD PRODUCT

TELOMERASE BENEFITS

OUR GOLD PRODUCT INCREASES TELOMERASE ACTIVITY*

In an independent laboratory study, our gold product increased telomerase activity, which is a marker of cellular and human longevity. Treatment with our gold product increased telomerase with each passage, or cell division, and performed as well as or better than the leading cellular aging or gold colloidal supplements currently on the market.*

Provides a burst of power when and where it's needed to increase cellular energy and vitality*

Promotes youthfulness by protecting DNA strands and increasing telomerase activity, a key longevity marker*

REVOLUTIONARY GOLD PRODUCT

BRAIN CELL BENEFITS

OUR GOLD PRODUCT PROVIDES POSITIVE BRAIN BENEFITS*

Our gold product was also found to increase the number of neurons, grow the neuronal network, and increase the number of synapses under normal conditions.* It was also able to protect the neuronal network under accelerated aging conditions.*

Promotes youthfulness by supporting mental acuity and memory*

May enhance neuronal plasticity and activate regenerative pathways in the brain*

STUDIES ON TRANSFER FACTORS

NK CELLS: QUICKER IMMUNE RESPONSE

OUR TRANSFER FACTOR PRODUCTS PROMOTED A QUICKER NK CELL RESPONSE TO A VIRAL THREAT

Immune system Natural Killer (NK) cell response to a viral health threat is critical to eliminating the threat. As you can see from the chart below regarding a 2007 study on transfer factors and a viral invader, a typical immune system NK cell response to a viral invader can take approximately 3.5 days to begin. The study below indicates that consuming transfer factors significantly accelerated the response of NK cells to only 1.5 days. That is a two-day quicker response time compared to those who did not consume transfer factors.

While this study by no means suggests that a person will not become ill while consuming transfer factors and combating a viral invader, it does potentially indicate that transfer factors can accelerate immune system NK cell response to the invader and reduce the illness duration.*

STUDIES ON TRANSFER FACTORS BRING IMMUNE SYSTEM INTO BALANCE

OUR TRANSFER FACTOR PRODUCTS HELP BRING THE IMMUNE SYSTEM BACK INTO HEALTHY BALANCE*

Transfer factors are smart peptide molecules that are able to modulate immune response in different parts of the body to promote healthy immune balance.* Unlike products that either raise or lower the immune system response as a whole, transfer factors can boost your immune system in one area of the body, while at the same time calming the immune system in other areas. The danger of an over-reactive immune system is that it can rob you of cellular energy and possibly lead to damage from long-term over-response.

In this study from 2007, conducted by our researchers, after multiple repeated FDA-approved diagnostic CD4 Helper T-cell in vitro assay tests, our products were found to be most effective recognizing the non-harmful plant-based substance as a non-threat and helped calm the overactive T-cells back to their initial resting state.*

4Life Transfer Factor® Tri-Factor™ Formula Helper T-Cell Graph

Modulates Helper T-Cell Activity

This study is based on results from multiple repeated tests conducted by our researchers during 2007 using an FDA-approved diagnostic CD4 Helper T-cell in vitro assay. This test started with helper T-cells (T cells) at rest. A non-harmful, plant-based stimulant was then introduced to the T cells, resulting in a large increase in T-cell activity. In this case, the high level of T-cell activity is not necessary because the stimulant is not harmful. The T-cells are actually in a state of overactivity, when they should remain in a state of rest.

Different substances were then introduced to overactive T-cells to see which would bring the T-cells back into healthy balance. Our transfer factor products most effectively calmed the overactive T-cells back to their initial resting state.

THE POWER OF LEVERAGING TEAMWORK

**BE IN BUSINESS FOR YOURSELF,
BUT NEVER BY YOURSELF**

THIS IS JUST ONE SMALL EXAMPLE OF THE POWER OF LEVERAGING WHEN EACH PERSON INVESTS 10 HOURS PER WEEK DEVELOPING THEIR RESIDUAL INCOME.

Alone, you would invest 10 hours per week developing your lifetime residual income.

Can you imagine how your business could **explode** when so many people with their own **unique gifts and talents** work together to secure their own financial futures?

As a TEAM, in this example, you would have 25 people investing a total of 250 hours per week working to develop their own income as well as your residual income.
